

Inmarob Lifescience Pvt Ltd

an UDYAM enterprise under MoMSME

PHARMACEUTICAL SIMULATION SOLUTION

www.inmarob.in/machines.html

Inmarob Machine offer equipment and provision for the manufacturing Potent drugs of various OEL Level.

Simulation Software is an unique solution to provide virtual environment for training the behaviour of manufacturing Potent drugs.

We offer sophisticated simulation and virtual reality training solutions for various business segment of Pharma, Oil & Gas, Marine & Defense, Airport & Material Handling services. We arrange for designs and develop high-specification complex simulation systems used in training, screening, feasibility analysis and process development.

Our comprehensive solutions for Isolator / Containment Systems for Pharma Formulation manufacturing of Solid Oral, Biotechnology as well as Sterile Filing operation. We also conduct training for Operator, Supervisor & Management key Personnel of Pharma enterprise worldwide.

Our consortium is a solution provider having a team of experienced specialists. We operate throughout Mumbai [India], therefore our engineers and regional representatives provide assistance on a daily basis and in situations requiring quick service actions.

Training on simulators introduces a quality in the field of training, because it reflects the real conditions prevailing during manufacturing of Potent drugs for various OEL Level.

The simulator is constantly being improved to keep up with changing operating techniques. The constant development of technology in manufacturing Potent drugs of various OEL Level; the new offer is unique in the country.

In conclusion, we invite you to visit our websites and learn about the available solutions offered for simulation on Isolator / Containment Systems. We provide information about our products and development plans. We will be happy to answer your questions at 0091 775 886 2940.
